PROFESSIONAL SUMMARY :

Dedicated Software Developer with strong proficiency in Python, along with solid understanding of object-oriented programming principles. Experienced in designing and developing scalable web applications and RESTful APIs. Skilled in writing clean, efficient, and maintainable code, working with SQL databases, and implementing backend functionalities following industry best practices. Familiar with version control systems and CI/CD pipelines to support seamless software development and deployment.

EDUCATION :

Hira sugar Institute of Technology, Nidasoshi, Belagavi 2021-2025
B.E(Bachelor of Engineering) in Computer Science and Engineering
CGPA : 8.4

C.L.E PU College Chikodi 2019-2021
Pre – University Course (PUC)
Percentage : 77%

C.K High School Examba 2018-2019
Secondary School Leaving Certificate (SSLC)
Percentage : 84%

EXPERIENCE :

Frontend Developer Jan 2026 – Feb 2026
Travel With Pravah

- Developed and designed the responsive Home Page using HTML, CSS, and JavaScript.
- Implemented interactive UI components and optimized the user experience across devices.
- Enhanced page responsiveness, layout consistency, and overall visual design

Junior Software Developer Mar 2026 – May 2026
eDeal India

- Developed responsive and mobile-friendly e-commerce interfaces using React.js, HTML, CSS, and JavaScript.
- Built product listings, filters, dashboard, cart, wishlist, checkout, authentication, profile, and order management features.
- Integrated REST APIs, performed testing, and enhanced user experience through interactive UI components.
- Used Git for version control and resolved UI/UX issues, responsiveness challenges, and application bugs.

TRANING & CERTIFICATION :

Python Full Stack Web Development Jun 2025 – Dec 2025
SkyllX – Software Training Institute, Bangalore

INTERNSHIP:

Web Development Internship (Frontend) – College-level hands-on training. Oct 2022 – Nov 2022
AI-ML Internship – Rooman Technology & IBM (Certified in AI & ML). Jun 2024 – Nov 2024

LANGUAGES :

English, Hindi, Kannada, Marathi

SKILL SETS:

- **Programming Languages:** C, Python
- **Frontend languages:** HTML, CSS, JavaScript, React.js
- **Backend Technologies:** Django, Next.js
- **Database:** MYSQL, MongoDB
- **Libraries:** NumPy, Pandas, Matplotlib
- **Data Visualization & BI:** Power BI and MS Excel
- **Tools &Technologies:** Git, GitHub, VS Code, PyCharm, Jupyter Notebook

PROJECTS:

Online Grocery Management System Nov 2023 – Feb 2024

- Built a PHP/MySQL web system to automate inventory, billing, and product tracking.
- Created a user-friendly interface to reduce manual errors.
- Enhanced efficiency of grocery store operations.

Crop Yield Prediction Dec 2024 – Apr 2025

- Developed a Python-based ML model to predict crop yields using soil, rainfall, and temperature data.
- Applied regression and ensemble algorithms to improve accuracy.
- Assisted farmers in data-driven crop planning and resource optimization.

Multi-Vendor E-Commerce & Online Shopping Platform Mar 2026 – May 2026

- Developed responsive frontend interfaces using React.js, HTML, CSS, and JavaScript.
- Implemented jewellery products, contest products, token-based lucky draw, and monthly/yearly scheme features.
- Integrated Next.js APIs and MongoDB for product, user, order, and transaction management.
- Built Admin Panel and Vendor Panel modules with payment gateway integration and order management functionality.
