NANDINI YAMAGAR

Bengaluru, Karnataka| +91 8073835526 | nandiniyamagar5@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science & Engineering graduate with an 8.3 CGPA and hands-on experience in Python, SQL, Django, REST APIs, React.js, and Data Analytics. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, SDLC, Git/GitHub, and database management. Skilled in developing and testing Python-based applications, backend services, REST APIs, and data-driven solutions. Experienced with Excel, Power BI, Pandas, NumPy, Scikit-learn, EDA, and Machine Learning through academic projects and internships. Contributed to a production-style e-commerce application and developed a Machine Learning-based Crop Yield Prediction project. Demonstrates strong problem-solving, analytical, collaboration, and adaptability skills.

TECHNICAL SKILL

Programming Languages: Python, JavaScript (ES6+), SQL

Core CS Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC

Databases: MySQL, PostgreSQL, MongoDB (schema design, CRUD, transactions)

Backend & APIs: Django, REST APIs, Node.js, JWT Authentication

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Data Analytics & BI: Excel (Pivot Tables, VLOOKUP, XLOOKUP), Power BI (Power Query, DAX, KPIs, Dashboards), SPSS

ML & Data Processing: Pandas, NumPy, Scikit-learn, EDA, feature engineering, regression & ensemble models

Tools & Version Control: Git/GitHub, CI/CD, Docker, Postman, VS Code

INTERNSHIP EXPERIENCE

Software Developer Intern — *eDeal India, Chikodi, India* ***Mar 2026 – Jun 2026***

Multi-Vendor E-Commerce & Online Shopping Platform

- Developed responsive and reusable UI components for the customer-facing web application using React.js, Next.js, HTML5, CSS3, and Tailwind CSS.
- Integrated frontend interfaces with REST APIs for product, category, cart, wishlist, checkout, profile, and order-related functionalities.
- Implemented and enhanced key user-facing features including product listing and details, search and filters, wishlist, shopping cart, checkout, order tracking, and user profile/dashboard.
- Identified and resolved UI and integration issues through debugging, testing, and Git/GitHub-based version control while collaborating with the development team.

PROJECTS

Crop Yield Prediction (Machine Learning) ***Nov 2024 – Apr 2025***

- Built a Machine Learning model in Python using Pandas, NumPy, and Scikit-learn to predict crop yield using soil, rainfall, and temperature features across multiple crop types.
- Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis (EDA) on agricultural datasets containing 1,000+ records.
- Trained and evaluated 3+ regression and ensemble models, including Linear Regression and Random Forest, to identify the best-performing model for crop yield prediction.

Grocery Management System (DBMS) ***Nov 2023 – Feb 2024***

- Designed and implemented a Grocery Management System using PHP, MySQL, and XAMPP, with a normalized database schema across 6 tables for inventory, billing, and customer records.
- Developed frontend and backend modules for stock tracking, sales entry, low-stock alerts, and automated billing for 100+ products, using CRUD operations and MySQL transaction handling.

CERTIFICATIONS

- AI & ML Internship, Certified — Rooman Technology & IBM ***Jun 2024 – Nov 2024***
- Python Full Stack Web Development — SkyllX Software Training Institute, Bangalore ***Jun 2025 – Dec 2025***
- IBM SPSS Statistics — Imra Tech Academy ***Aug 2026***
- Power BI for Beginners — Simplilearn ***Sep 2026***

EDUCATION

B.E. Computer Science & Engineering — Hira Sugar Institute of Technology, Belagavi | **CGPA 8.3** ***2021 – 2025***

Pre-University Course (PUC) — C.L.E PU College, Chikodi | **77%** ***2019 – 2021***

SSLC (10th) — C.K. High School, Examba | **84%** ***2018 – 2019***
